

ANEMONE

ANEMONE

PLANT CHARACTERISTICS

Size

0.5 – 1.5' high, 0.5 - 2' wide

Sun/Shade

Full Sun to Part Shade

Water

Medium

Maintenance

Low

Life Span

Perennial, Zones 3-8

Description

Anemone is a large group in the buttercup family encompassing a wide range of plants with varying sizes, blooms periods and colors including multi-color. They are usually stemless plants that grow in either full sun or partial shade. They need consistently moist soils and should be planted away from drying winter winds. They have no specific insect or disease problems.
