

FRINGED LOOSESTRIFE
LYSIMACHIA CILIATA

PLANT CHARACTERISTICS

Size

3-4' high, 1.5-2' wide

Sun/Shade

Full sun to part shade

Water

Medium to moist

Maintenance

Low

Life Span

Herbaceous Perennial, zones 4-9

Description

This wildflower is native to Canada and the USA. It's found in moist conditions in fertile loamy soil with organic matter. Gold-yellow flowers (.5-1" across) with 5 petals on 3" hairy stems bloom May through September. Green leaves appear in pairs opposite along the stem (up to 6" long and 2.5" wide with fine hair along the edge).
