

ITALIAN PARSLEY

PETROSELINUM CRISPUM

VAR. *NEAPOLITANUM*

PLANT CHARACTERISTICS

Size

.75-1' high, .75-1' wide

Sun/Shade

Full sun to part shade

Water

Medium

Maintenance

Low

Life Span

Annual, Zones 2-11

Description

This plant has showy flowers that attract butterflies. Grown as an annual. Plants can be grown from seed but germination is slow. Grown for aromatic edible leaves. Possible issues are septoria leaf spot and stem rot. Carrot weevil, flea beetles, and leafhoppers can also cause problems.
