

# DRINKING WATER TESTING CLINICS

## Northern Shenandoah Valley FEBRUARY 2015

**Does your water come from a well,  
spring, or cistern?**

**Do you want to learn more about  
the quality of your water?**

### How it works:

1. At a brief informational meeting, pick up a sample kit and get instructions to collect your household water sample.
2. Collect a sample from your tap at home and complete a short questionnaire.
3. Drop off sample at a designated location and time.
4. About four (4) weeks later, come back to get your confidential test results, an explanation of what the numbers mean, and information on how to handle any problems that are present.

The water testing covers the following parameters and potential contaminants: iron, manganese, sulfate, hardness, sodium, copper, nitrate, arsenic, fluoride, ph, total dissolved solids, coliform bacteria, e. coli bacteria, and lead. The cost for the sample analysis is \$49, which is due at the kick-off meeting when participants receive their sample kit. Please make checks payable to VCE-Frederick County. **Space is limited, so make sure you pre-register.** Reserve your space today; contact your local office of Virginia Cooperative Extension in the Northern Shenandoah Valley to pre-pay and pre-register.

**Clinics will be offered in the counties of Clarke, Frederick, Page, Shenandoah, and Warren in February 2015. Please see reverse for dates, times, locations, and cost.**

### **For more information contact your local office of VCE:**

VCE-Clarke County	540-955-5164
VCE-Frederick County	540-665-5699
VCE-Page County	540-778-5794
VCE-Shenandoah County	540-459-6140
VCE-Warren County	540-635-4549

*If you are a person with a disability and desire any assistive devices, services, or other accommodations to participate in this activity, please contact Mark Sutphin by calling 540.665.5699 to discuss accommodations at least 5 days prior to the event \*TDD number is (800) 828-1120.*
