

BUGLEWEED

AJUGA REPTANS

PLANT CHARACTERISTICS

Size

.5-.75' high, .5-1' wide

Sun/Shade

Full sun to part shade

Water

Medium

Maintenance

Low

Life Span

Herbaceous Perennial, zones 3-10

Description

This dense, rapidly spreading, mat-forming ground cover has shiny dark green leaves. Tiny, blue-violet flowers appear mid to late spring in whorls, on spikes above the foliage (to 10"). Cultivars have leaves with varied foliage color. Foliage will choke out weeds but avoid planting near perennial beds or near lawns. Can be invasive if not controlled. Good for small spaces, containers, or rock gardens.
