

## ASIATIC HYBRID LILIES *LILIUM (ASIATIC)*

### PLANT CHARACTERISTICS

 Size

2-4' high, 1-1.5" wide

 Sun/Shade

Full sun to part shade

 Water

Medium

 Maintenance

Medium

 Life Span

Herbaceous Perennial, Zones 4-8

### DESCRIPTION

This plant has showy, good cutting flowers that bloom from June to July. Flowers come in many colors and consist of 6 colored petals with colored sepals. Bulbs should be planted in groups of 3, 4-6" deep, and 12" apart in the fall. Bulbs need even moisture year round, but too much water can lead to bulb rot. Other potential diseases include lily mosaic virus and botrytis.
