

RESURRECTION LILY

LYCORIS SQUAMIGERA

PLANT CHARACTERISTICS

Size

2-3' high, 2-3' wide

Sun/Shade

Full sun to part shade

Water

Medium

Maintenance

Low

Life Span

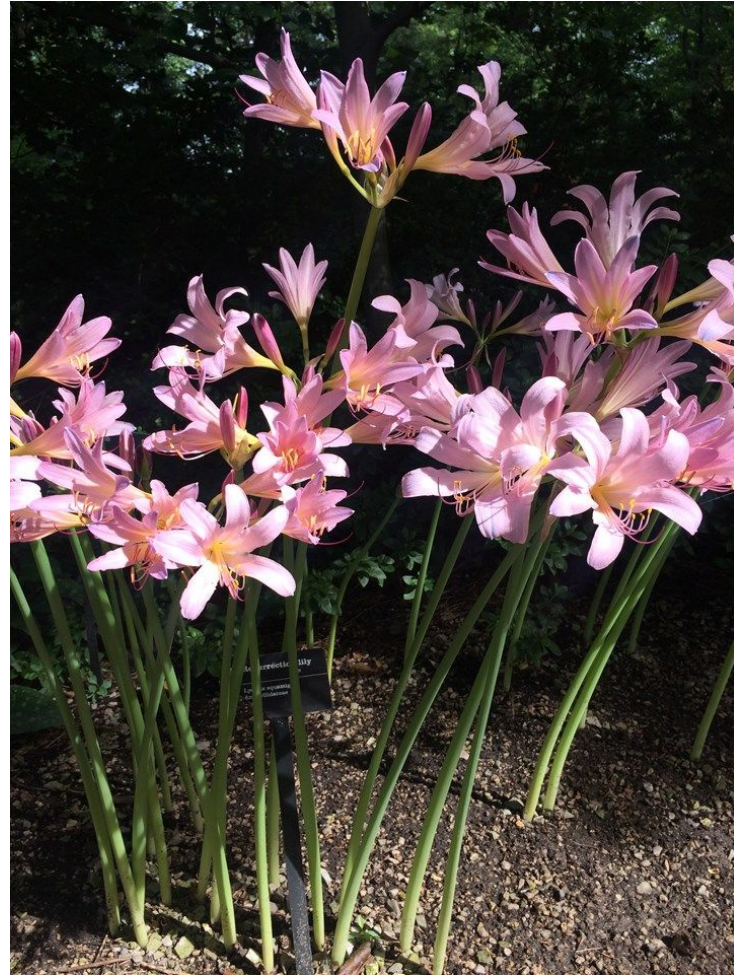

Bulb, zones 5-9

Description

This August to September blooming bulb has gray-green leaves that are up to 12" long and 1" wide in the spring. After the leaves die back in summer, thick naked flower stalks reach 2' tall in late summer. Each stalk has 4-7 fragrant, funnel-shaped, rose-pink flowers, tinged with lilac.
