

## PLUME POPPY

### *MACLEAYA CORDATA*

#### PLANT CHARACTERISTICS

##### Size

5-8' high, 2-4' wide

##### Sun/Shade

Full sun to part shade

##### Water

Medium

##### Maintenance

Low

##### Life Span

Herbaceous Perennial, zones 3-8

##### Description

This plant is a vigorous rhizomatous perennial and is noted for its attractive flower panicles, large scalloped leaves and spreading habit. Plants may self-seed in the garden but may be deadheaded to discourage unwanted reseeding. It can be used for border background, but is not recommended for small areas or where it can spread into other perennials. No serious insect or disease problems.
