

DOTTED BEE BALM
MONARDA PUNCTATA

PLANT CHARACTERISTICS

Size

1.5' high, 2' wide

Sun/Shade

Full sun to part shade

Water

Dry to Medium

Maintenance

Medium

Life Span

Herbaceous perennial, Zones 3-8

Description

This plant blooms from June to July with a yellow flower and purple spots. It can be used in perennial borders, cottage gardens, meadows, wild gardens and herb gardens and is also an interesting addition to butterfly gardens. Powdery mildew can be a serious problem, particularly in crowded gardens with poor air circulation. Rust can be a problem but deer tend to ignore this plant.
