

CREeping STONECROP
PHEDIMUS SPURIUS

PLANT CHARACTERISTICS

Size

2-6" high, 2-3' wide

Sun/Shade

Full sun to partial shade

Water

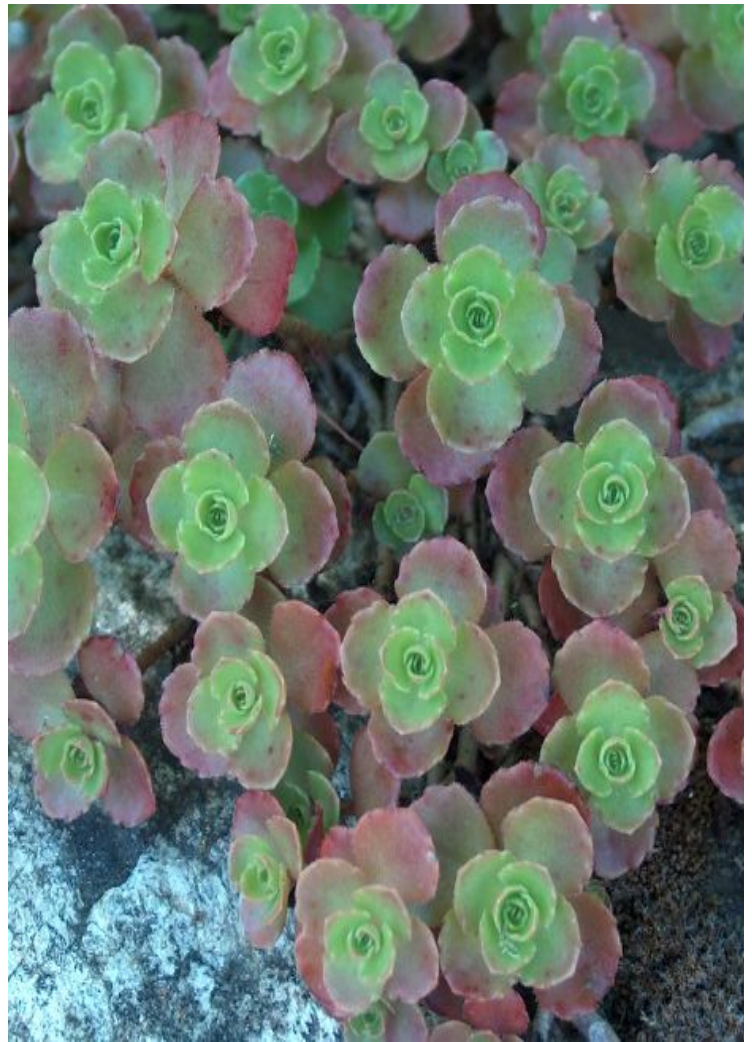

Low

Maintenance

Low

Life Span

Succulent Perennial, Zones 3-9

Description

This plant has showy star-shaped flowers that bloom from spring to summer. Leaves are semi-evergreen and are showy. Tolerant to drought. Attracts birds, butterflies, and pollinators. Can be grown as a houseplant or in butterfly gardens, rock gardens, or pollinator gardens. Can be grown from seeds, division, or stem cuttings.
